## Filters

**TOTALIFT<sup>®</sup>'s filter program has one of the industries most comprehensive lines of heavy duty filters.**

# Filters

## *Our Offering:*

Dirt is the enemy of fine machinery. It causes failure of precision parts, shortens machine life, and leads to expensive repairs. Other contaminants, such as moisture, sludge, bits of metal, and corrosive compounds, take their toll. No matter how tightly you try to seal them out, contaminants manage to work their way inside every hard-working piece of equipment. Manufacturers recommend that fluids and filters are the only sure way to keep contaminants under control. The fuel, the lubricants, even the air your lift truck breathes must be thoroughly filtered to protect your investment. This is why frequent changes of oil and filters are important. A filter that is clogged with dirt or dirty fluid cannot work efficiently. But even more important, you must install exactly the right filter and fluid for each job, the filter and fluid that matches engineering specifications.

CLARK®'s TOTALIFT® filters deliver superior protection, added efficiency, and problem free durability. Our filter program has one of the industries' most comprehensive line of heavy duty filters with over 30,000 competitive filter crosses in stock.

- Allis Chalmers
- Baker
- Crown
- Caterpillar
- Daewoo
- Hyster
- Komatsu
- Mitsubishi
- Mercury
- Nissan
- Raymond
- TCM
- Toyota
- White Mobilift
- Yale
- And Others

TOTALIFT®'s air, lube, fuel, and hydraulic heavy duty filters meet or exceed requirements of the most rigorous specifications. For superior performance and ease of servicing, nothing tops TOTALIFT®'s filters.

In addition to complete filter availability by part number, Clark dealers have the ability to identify and provide the necessary filters to service your Clark, Doosan, Mitsubishi, Nissan, or Toyota forklift by Model and Serial Number. Optional filters also available.
