

Paint & Decals

Our Offering:

Decals:

CLARK® believes fully informed people are safer and more productive. Safety decals, in combination with proper training and effective supervision, can provide important reminders of safety to operators, supervisors, owners, and others. The Occupational Safety and Health Administration (OSHA) requires that your customers maintain all safety and related decals. All decals related to safety should be in the proper location and must be legible.

We offer a full line of safety decals. Make sure your CLARK service technician discusses the importance of safety decals at your next planned maintenance appointment.

Paint:

- Available in aerosols and one gallon cans, this product offers a durable, hard finish.
- Valspar® Renew® can be used on properly prepared surfaces of fiberglass and ferrous metals as well as previously painted surfaces.
- Colors match original equipment finishes.
- Lasting gloss and color retention.
- Paint dries fast and dust free.
- Superior resistance to rust, corrosion, and abrasion.
- CLARK® TOTALIFT® high-visibility finishes are formulated and exhaustively tested to withstand the rigors of equipment usage year after year.
- Quality product at an affordable price.
