

TOTALIFT[®]

Load Wheels

Warranted to be free of defects for the life of the tire.

Load Wheels

Our Offering:

- **Cushothane®**
Engineered to perform reliably in everyday use and achieve maximum worklife in general purpose applications.
Produced under the highest quality standard in production facility with ISO 9001:2008 Certification for Quality Management.
Greater reliability that offers lower maintenance cost and minimal downtime.
- **Cushothane® EZ™**
Smoothest ride and quickest run-out of any flat spot for less vibration and reduced noise, minimizing machine and operator fatigue and increasing productivity.
Superior traction and grip from special polyurethane compound that also offer superior chunk resistance.
Very low rolling resistance that provides longest operating time possible.
- **Cushothane® XL™**
Heaviest load and duty cycle from legendary American polyurethane technology and revolutionary XL3™ bonding technology.
Eliminate bond failure with "surface treated" hub and ultra strong XL3™ polyurethane to steel hub bonding technology.
Defies the worst surface condition from the toughest polyurethane compound with ultra high tear resistance.
Highest productivity and lower overall cost by maximizing truck and operator capabilities and lowering expense on maintenance labor and replacement parts.
- **STR Stabilizer Caster**
Patented PolyBlock™ technology - eliminates the use of unreliable metal springs.
Greater cornering stability and comfort.
Heavy duty construction.
Convenient height adjustment.
- **STR Food Service Caster**
Same great benefits of STR Stabilizer Caster but customized for food service and wash down condition.
Greaseable pivot axle, axle and Premium XL™ Wheel.
